

Zenport Long Reach Pruner ZL610-S Spring Replacement

#1 Press handle pivot pin through and out of the handle/lever with a screwdriver that is smaller in diameter than the pin.

#2 Place the new spring in the handle lever

#3 Using your thumb secure the spring and push into handle

#4 Press the pin back into the handle securing the lever.

#5 Make sure the pin is flush with the handle so that it locks into place.
